## Decussate Pty Ltd - Software Engineer

+61 477 350 007

<http://www.tpee.co/>

[tonypolinelli@gmail.com](mailto:tonypolinelli@gmail.com)

Full-stack engineer with frontend focus and strong design instincts. Consulting as Decussate in Australia, San Francisco and SE Asia since 2017. Providing Full stack React focussed software services.

### Skills

- Typescript, React, Nextjs, React Native, react-native-web,
- Node, GraphQL, GraphQL, Postgres, Mysql, RPC
- User Experience (UX), Product Development, Concepting
- Playwright, CI, End-to-End Testing,

### Decussate Pty Ltd. 2019 - Present

I work remotely consulting for following startups.

#### Elephants.inc - Principle Engineer - 2024 - Present

Working with this emerging SE Asian Fintech. We are developing a stablecoin based payments application. I work with the team building a [Next.js](#) Web & mobile application.

#### Wz AI - Principle Engineer - 2023

I led the engineering effort for a mobile first web app for an AI image gen startup. With 130,000+ users serving 3,000,000+ images this popular app was rapidly developed over a few months with regular releases.

#### Bluescape

**2021 - 2023 Principle Software Engineer II, Architect**

**2020 - 2021 Principle Software Engineer**

**2019 - 2020 Senior Software Engineer**

Over 3 years at [Bluescape LLC](#) I led the frontend development for multiple products. I headed development for the the 'Templates' feature, re-architected the 'config center' and the 'My Bluescape' asset management portal. I created the 'shared components' monorepo package and defined core infrastructure.

## **2017 - 2019 Software Engineering Consultancy**

### **Melbourne**

Pixel Technologies - React Native development for IOT management software  
GAT coin - Software engineer - React Native development for Flex Rewards Application  
Isobar Australia - Software engineer - React / SIP VoIP integration - Jetstar
